Professional experiencies

September 2021 – now
ICT CONSULTANT – SOFTWARE DEVELOPER
TINVENTION S.r.l., Milan

September 2016, February 2016, July 2015, June - July 2014
WEB DEVELOPER
iPlus Service, Morbegno (SO)

Education

July 2021
Master of science in AUTOMATION AND CONTROL ENGINEERING - INGEGNERIA DELL'AUTOMAZIONE
Thesis: *Simultaneous Localization and Mapping in Urban Scenarios with Non-Rigid OpenStreetMap Priors*
Vote: 107 / 110
Polytechnic University of Milan (Politecnico di Milano)

September 2018
Bachelor of science in INGEGNERIA DELL'AUTOMAZIONE (Automation Engineering)
Polytechnic University of Milan (Politecnico di Milano)

2015
High school diploma TECNICO INFORMATICO (IT Technician)
Istituto d’Istruzione Superiore “Marco Polo”, Colico (LC)

Training courses & projects

September 2021 – December 2021
Supplying authority: TINVENTION S.r.l.
Course title: JEE Software Architect
Description: S.O. & net basics, DBMS SQL, OOP Java, JSE, Java Tools & Libs, WebTech Base, Java Web, Spring Framework

January 2020 – February 2020
Supplying authority: Polytechnic University of Milan (Politecnico di Milano)
Course title: Image Analysis and Computer Vision project – Mosaicing
Description: Align various images through Matlab using an innovative “as-projective-as-possible” stitching technique.

October 2019 – February 2020
Supplying authority: Polytechnic University of Milan (Politecnico di Milano)
Course title: Project Work – Pedestrian Flow Modeling
Description: Project in collaboration with a startup. Analysis of pedestrians’ trajectories using Matlab to improve the motion of a mobile robot.

February 2019 – June 2019
Supplying authority: Polytechnic University of Milan (Politecnico di Milano)
Course title: Model Based Design for electrical systems

Description: Enable students to use Simulink, Stateflow to model electrical/electronic systems for various applications and related control. Use automatic code generation tools to implement algorithms on electronic control units (Arduino) for developing electrical systems for applications in industrial automation, biomedical, electrical systems and more.

Languages

ITALIAN:	native language
ENGLISH:	TOEIC B2 Listening, C1 Reading intermediate Speaking and Writing

IT knowledge

Operating systems:	Windows, Ubuntu
Programming languages:	C++, Java, Bash
Other:	MS Office, Git, Subversion, Maven, Jira, Confluence, Bitbucket, Redmine, MATLAB, Simulink/Stateflow, ROS, OpenModelica, C, C#, web languages (HTML, CSS, SQL, PHP, JavaScript)
